

Application Form

1. The application form **must not exceed 30 pages** and must be typed using the minimum font size of 10 with single spaced lines. Do not change the default font and the established formats of the tables. Explanations written in italics can be deleted.
2. Application form **must be prepared in English**.
3. Please complete all the sections **for all partners** involved in the project from different countries, including the partner(s) not requesting funding. Otherwise, your application results in rejection.
4. Keep in mind that a separate document needs to be filled for the details of requested project budget.

Acronym of the Project

Title of the Project

Positioning of the Project

Describe the positioning of the project e.g. where it is situated in the spectrum from 'idea to application', or from 'lab to market'. Refer to Technology Readiness Levels (TRLs)¹ where relevant.

Accordance with the Call:

Please describe how the project fits the scope of call (max. 1/2 page)

Related Specific Thematic Area(s) of the Call (if relevant):

Project Duration:

 months

Partners Involved in the Project

Partner Number ²	Country	Full Name of Partner Organization	Organization Type ³	Name of Principal Investigator (PI) ⁴	Project Cost ⁵	Requested Cost ^{5, 6}
1						
2						
3						
4						
Total						

Use as many lines as needed

¹ [Technology readiness levels](#)

² Please only list the partners of the project. The co-investigator(s) working under the team of principal investigator should not be listed as a partner.

³ HE-University, RC-Research Center, SME-Small Medium sized Enterprise, LC-Large Company, Others (according to national rules).

⁴ **Bold** the leading principal investigator (LPI) and underline the project coordinator, if relevant.

⁵ Please also indicate the currency (local currency of the partner country may be used).

⁶ The requested cost is calculated by multiplying the project cost by the applicable funding rate, as specified in the call text.

Summary of the Project (publishable abstract, up to 400 words):

Please describe the following aspects:

- i) Scientific/Technological Excellence
- ii) Methodology
- iii) Project Management
- iv) Structure and Contribution of International Collaboration
- v) Impact

Keywords:

Table of Contents:

Make sure that the page numbers are updated before the submission.

SECTION 1: SCIENTIFIC/TECHNOLOGICAL EXCELLENCE	3
1.1 AIMS AND OBJECTIVES OF THE PROJECT	3
1.2 STATE OF THE ART	3
1.3 SCIENTIFIC QUALITY, CONTRIBUTION AND INNOVATION POTENTIAL	3
SECTION 2: METHODOLOGY	3
SECTION 3: PROJECT MANAGEMENT.....	5
3.1 WORK PLAN	5
3.2 WORK PACKAGES	6
3.3 MILESTONES, SUCCESS CRITERIA AND RISK ANALYSIS.....	7
SECTION 4: STRUCTURE AND CONTRIBUTION OF INTERNATIONAL COLLABORATION	8
4.1 EXPERTISE AND ROLE OF EACH PARTNER	8
4.2 ADDED VALUE OF THE COLLABORATION	8
4.3 KEY FACILITIES AND INFRASTRUCTURE SUPPORTING THE COLLABORATION.....	8
4.4 MANAGEMENT OF INTELLECTUAL PROPERTY	9
SECTION 5: IMPACT	9
5.1 EXPECTED OUTCOMES AND IMPACTS	9
5.2 ACTIVITY PLAN FOR THE DISSEMINATION OF PROJECT RESULTS AND SCIENCE COMMUNICATION	10
SECTION 6: ETHICAL ISSUES	10
SECTION 7: REFERENCES.....	10

Section 1: Scientific/Technological Excellence

1.1 Aims and Objectives of the Project

(~ 1-2 page)

Please describe the aims and scientific/technical objectives of the project in detail with clear and brief statements. The objectives should be measurable, realistic and achievable within the duration of the project.

1.2 State of the Art

(~ 1-2 pages)

Please describe the current national and international state of the art in the domain addressed by the project (present a literature review including, if applicable, patent/utility model/market research relevant to the project). All necessary references must be given in Section 7.

1.3 Scientific Quality, Contribution and Innovation Potential

(~ 1-2 page)

Please describe the scientific quality of the project and its methodological/conceptual/theoretical contribution to the related scientific and technological area, highlighting the expected progress beyond the state of the art. If the project aims to develop new or improved products or processes, please explain the innovation potential by referring, where appropriate, to comparable products or processes already available on the market.

Section 2: Methodology

(~ 1-2 page)

Please provide a detailed explanation of the methodology and research techniques to be used in the project, including data collection tools and analysis methods. The rationale for selecting these methods should be clearly justified with references to relevant literature and their suitability for achieving the project's aims and objectives should be explained.

The methodology section should comprehensively describe key elements such as the research design, dependent and independent variables, and statistical methods, along with any other relevant components. If preliminary studies have been conducted on the project topic, please provide information on these to demonstrate feasibility. Additionally, a flowchart illustrating the methodological steps may be included, considering the overall research design.

--

Section 3: Project Management

3.1 Work Plan

(~ 2-3 page)

Provide a work-time schedule using the following Gantt chart. A graphical presentation (Pert chart or similar) which shows inter-relations of different work packages (WPs) is also expected.

Literature review, preparation of progress and final reports, dissemination activities, writing articles and purchasing of any material to be used during the project should not be a separate WP. Describe the organizational structure, the management structure and the decision-making.

Give full details. Base your account on the logical structure of the project and the stages in which it is to be carried out. Each work package should be a substantial part of the work plan, and the number of work packages should be proportionate to the scale and complexity of the project.

Work-Time Schedule (Gantt chart)

Use as many rows and columns as needed

WP No	WP Name	Year 1												Year 2												Year 3												
		1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32	33	34	35	36	

3.2 Work Packages

Provide a description of **each work package** (template provided).

(Up to 1 page per WP)

WP 1	WP Title			Start Date	End Date	Duration (months)
Contribution of project partners						
Partner number ⁷	1	2	3	4		
Total effort per partner (Person-months) ⁸						
Objectives						
Please provide a general description of the work to be undertaken (including methods to be applied where appropriate), identify the partners involved and specify their contributions.						
Interdependence with Other Work Packages						
Please describe the interdependencies between the present work package with other work packages.						
Tasks						
T1.1	Task title (Start month – end month; Responsible partner; Involved partner(s)) Description of work and role of participant					
T1.2	Task title (Start month – end month; Responsible partner; Involved partner(s)) Description of work and role of participant Add as many lines as needed					
Deliverable	Month of delivery	Title of deliverable				
D1.1						
D1.2						
		Add as many lines as needed				

Use as many WP templates as needed

Work package overview: Total effort per WP and partner (Person-months)

Partner Number	WP1	WP2	WP3	WP4	WP5	WP6	Total
1							
2							
3							
4							
Total							

Use as many lines and columns as needed

⁷ Partner numbers should be consistent with those assigned on the first page of the form. **Bold** the partner number of the work package leader.

⁸ "Person-month" is the metric for expressing the effort that a person devotes to the project. To calculate person-month, multiply the percentage of working time by number of months. For example, if a person allocates 50% of his/her working time for the project activities for 10 months, then his/her contribution in terms of person-month will be 0,5 x 10 = 5 person-month. The total effort per partner in each WP is the sum of person-months of all project personnel involving in that WP.

3.3 Milestones, Success Criteria and Risk Analysis

(~ 1-2 pages)

Please provide a list of milestones, success criteria and potential risks (template provided).

List of milestones

Milestone	Delivery month	WP involved	Title
M1			
M2			
M3			

Use as many lines as needed, but try to limit the number of milestones

Success criteria

The success criterion describes the criterion for each WP to be considered successful. The success criteria should be measurable and monitorable.

WP	Objective of WP	Success Criteria (%, number, statement etc.)	Importance of the WP for the Success of the Project (%)
WP1			
WP2			
WP3			

Use as many lines and columns as needed

The sum of percentages in the "Importance of the WP for Success of the Project" column should be 100.

Risk analysis

The risks that may negatively affect the success of the project, their potential impacts, and corresponding mitigation measures should be described. The Risk Reduction Plan should be aligned with the main objectives of the project.

Risk description (indicate level of (i) likelihood, and (ii) severity: Low/Medium/High)	WP (s) involved	Impact	Proposed risk-mitigation measures

Section 4: Structure and Contribution of International Collaboration

4.1 Expertise and Role of Each Partner

Describe each partner in the project by using the template below.

(max. 1 page per partner)

Partner no (1,2,3 etc.)	Partner Organization Full Name
Expertise	
Expertise of the partner's project team related to the objectives of the project. Provide a brief CV of the principal investigator highlighting research experience and list the 5 most important publications of the last three years.	
Partner Organization's Role in Project	

Use as many templates as needed

4.2 Added Value of the Collaboration

(~ 1 page)

- How the partners complement one another in terms of necessary expertise, technology and other resources? Describe the added value of the consortium as a whole (including complementarity, balance). - Please explain the necessity and importance of implementing the project with international collaboration. - If the technology transfer between the partners is foreseen, please explain how it will be accomplished.

4.3 Key Facilities and Infrastructure Supporting the Collaboration

(~ 1 page)

- Please list the facilities/infrastructure (laboratories, testing environment, equipment, software etc.) of each partner and their purpose of use in the project.
- For projects aiming new product development, please specify the sufficiency of relevant partners' infrastructure for new product development and design.

Partner Number	Description of Facilities/Infrastructure	Purpose of Use During the Project
1		
2		
3		
4		

Use as many lines as needed

4.4 Management of Intellectual Property

(~ ½ page)

- Please specify the project output(s) which might be subject to registration of patent, utility model and industrial design.
- Describe the management of intellectual property rights (A global consortium agreement is strongly recommended to be prepared to manage the intellectual property rights, publication and exploitation plans, as well as management rules between the partners).

Section 5: Impact

5.1 Expected Outcomes and Impacts

(~ 1-2 page)

Describe the expected outcome(s) and impact(s) of the project in relation to the project objectives using the template below. Wherever possible, use quantified indicators and targets. Please also indicate the estimated timeframe (*).

Scientific/Academic

(National/International Article, Book, Part of a Book Conference Proceeding, etc.)

Economic/Commercial/Social/Environmental

(Prototype, Product, Patent, Utility Model, Production License, Registration, Audio/Visual Archive, Inventory/ Database/Documentation Production, Spin-off/Start-up Company, etc.)

For the projects aiming new product or process development, please also answer the following questions;

- Describe the added value that the project will provide and the contribution of the project output(s) to partner(s)' efficiency and competitiveness.
- Explain the commercialization potential and domestic/international market share of project output(s) including a brief comparison with other potentially competing products or services and its possibility to replace an imported product.
- Provide a clear and realistic commercialization plan of project output(s) including the following information:
 - Time to market (where relevant)
 - Increase in sales rate
 - Increase in market share
 - Breakeven point

Researcher Training and Creating New Project(s)

(Master's/Doctorate/Medical Specialty/Art Proficiency Graduate Thesis, National/International New Project, etc.)

* Indicated as 0-12 months, 12-18 months, after the project, etc.

5.2 Activity Plan for the Dissemination of Project Results and Science Communication

(~ ½ page)

Target Group: Please describe the target group(s) expected to benefit from the outputs and outcomes of the project (e.g., academics, policymakers and practitioners, private sector actors, individuals, specific age groups). Please explain how you intend to reach these groups and how they are expected to benefit from the planned dissemination activities.

Objectives and Expected Impact: Please explain the objectives of the dissemination activities in terms of increasing awareness, interest, and knowledge accumulation regarding the project topic. Please indicate why sharing the project results with the identified target group(s) is important and what kind of impact or benefits are expected to be achieved.

Dissemination Tools and Channels: Please describe which communication tools and channels will be used to share the project content (e.g., digital platforms, media tools, websites, workshops, meetings, podcasts, visual/audio tools such as infographics, fairs, exhibitions, etc.). Please justify the choice of these tools considering the characteristics of the target group(s), and explain how interaction and engagement will be ensured.

Timeline: Please provide a timeline showing when each dissemination activity will be carried out and how long each activity is expected to last.

Section 6: Ethical Issues

(~ ½ page)

Describe any potential ethical issue that may arise during execution of the project.
Describe your strategies to be followed to reduce ethical risk.

Section 7: References

Each reference must include the names of all authors, article/journal/book title, volume number, page numbers and year of publication. If the document is available electronically, the website address should also be shared. References must be cited within the text.
